

The Arkansas Department of Education introduces the Arkansas Literacy Intervention Matrix, a new tool for teachers to aid in literacy instruction. The Matrix includes:

- “Best practices” – research-based, curricular approaches linked directly to the Arkansas Frameworks. These can be used with all students (including students with disabilities) to maximize total literacy success
- Probes to assist teachers in functional analysis of possible deficits in literacy
- Sample lessons providing a framework to address a particular skill deficit.

To make full use of the Arkansas Literacy Intervention Matrix, link here. <http://literacymatrix.com/>
